

## NS-SIL200M

### Medical Grade Silicone Tube

#### Description

Medical grade silicone tube, using medical silicone rubber materials, precision molds platinum sulfide vertical extrusion molding, the cavity is smooth, standard size, wall thickness, high tear resistance, high resilience, long home-yellowing, non-volatile matter, odorless, non-plasticizing agent, can reach food hygiene, medicine pharmacopoeia, medical and other testing standards, the normal life of more than 10 years.

#### Features

- High temperature resistant, corona resistant, flexible
- RoHS Compliant
- Continuous operating temperature: -60°C~200°C
- Standard color: red, blue, white, green, transparency and others.

## Technical Performance

Property	Property	Test Method
Tear Strength	≥3.5MPa	GB/T 1040
Elongation	≥200%	GB/T 1040

## Dimensions

- ID: 0.4mm~80mm
- ID tolerances: standard: ±0.1mm, also available: ±0.05mm
- Characters and Logos screen printed on the surface upon request
